Firebase Cloud messaging is used by [REDACTED], helps them reach out to their users in real time. We reach out to [REDACTED]. We process [REDACTED] every week

Since we launched the service in 2010 we have seen tremendous growth. We crossed [REDACTED]

So with this growth it is easy to overlook some small problems. [REDACTED] of the population, you have some [REDACTED]. When we built cloud messaging we did not expect such growth, not for android, nor for cloud messaging.

Finding the right balance
